

Color system

Values mirror the app's `:root` tokens in `app/globals.css` (as of this kit) for **Pixel Place**. **Mainline Studios** corporate colors are documented separately below for studio collateral.

Mainline Studios (corporate)

Used in `assets/mainline-mark.svg` and `assets/mainline-lockup-dark.svg` . Not necessarily identical to in-app Pixel Place tokens.

Role	Hex	Notes
Studio blue	#2B78C5	Icon fill + outline on marks and lockups
Studio dark	#0B0E14	Lockup background (≈ navy / near-black)
Wordmark	#ffffff	"MAINLINE STUDIOS" on dark lockup

Optional glow behind wordmark: soft blue blur at low opacity (see SVG filter in lockup file).

Pixel Place — core UI

Token	Hex	Usage
<code>--background</code> / <code>--bg-main</code>	#12141c	Page base
<code>--foreground</code> / <code>--text-main</code>	#f1f5f9	Primary text
<code>--text-dim</code>	#94a3b8	Secondary / meta text
<code>--panel</code>	#181b28	Cards, panels
<code>--panel-soft</code>	#222738	Softer panel fill
<code>--panel-alt</code>	#0e1018	Deeper panel / contrast

Token	Hex	Usage
<code>--border</code>	<code>#32394e</code>	Default borders
<code>--border-strong</code>	<code>#4f5771</code>	Emphasized borders

Brand accents

Token	Hex	Usage
<code>--accent</code>	<code>#7dd3fc</code>	Links, highlights
<code>--accent-hover</code>	<code>#e0f2fe</code>	Hover / bright emphasis
<code>--accent-bg</code>	<code>#243047</code>	Tinted surfaces
<code>--accent-bg-hover</code>	<code>#2e3d5c</code>	Hover tinted surfaces
<code>--brand-sky</code>	<code>#38bdf8</code>	Strong sky (glows, login, CTAs)
<code>--brand-sky-rgb</code>	<code>56, 189, 248</code>	<code>rgba()</code> overlays
<code>--brand-violet-rgb</code>	<code>129, 140, 248</code>	Secondary glow / gradient partner

Semantic

Token	Hex	Usage
<code>--danger</code>	<code>#f87171</code>	Errors, destructive emphasis

Atmosphere (reference)

Body background uses layered radial gradients with sky (`#38bdf8`) and violet (`#818cf8`) at low opacity over `#12141c` — see `body` and `body::before` in `globals.css` .

Login / marketing accent

Login screen uses a dedicated deep blue grid (`#0a0c12`) and cyan grid lines — not identical to dashboard `--bg-main` ; use for “auth / landing” comps only.

Editor / special

Token	Hex	Usage
<code>--edit-bg</code>	<code>#2a2612</code>	Edit-mode surfaces
<code>--edit-border</code>	<code>#665516</code>	Edit-mode borders
<code>--edit-text</code>	<code>#ffdd7a</code>	Edit-mode emphasis

Radius & shadow (reference)

- `--panel-radius` : 16px
- Card shadow: `--shadow-card` (see CSS for full stack)
- Optional glow: `--glow-outline`
