

Mainline Studios — brand reference

Mainline Studios is the parent organization behind **Pixel Place** and related projects. Use this document for studio-level decks, press, hiring pages, and partner materials.

Relationship to Pixel Place

Entity	Role
Mainline Studios	Publisher / studio name — use on copyright lines, “by Mainline Studios,” press boilerplate.
Pixel Place	Product — web platform (games, avatars, studio, community).

Credit pattern (example):

Pixel Place © [year] by **Mainline Studios**.

Logo — mark (light background)

Use on white or very light UI, letterhead, and slides.

- **Mark:** rounded square outline + solid inner rounded square.
- **Blue:** #2B78C5 (see [COLORS.md](#) — Mainline section).

Logo — lockup (dark background)

Full wordmark for hero sections, video end cards, and dark-themed collateral.

MAINLINE STUDIOS

- **Background:** #0B0E14
- **Wordmark:** white, uppercase, wide tracking (approx. **0.42em** letter-spacing in master artwork).
- **Accent:** same studio blue #2B78C5 on the icon.

Voice (studio-level)

- Professional, clear, builder-focused.
- Pixel Place-specific copy can stay playful (see [BRAND_GUIDELINES.md](#)); studio-level pages may be slightly more formal.
- Inclusive and accurate when discussing community and identity.

Digital & social (verify live URLs)

- **GitHub org:** [Mainline-Studios on GitHub](#)
- **Pixel Place YouTube:** [@OfficialPixelPlace](#)
- **Product site:** [pixelplaceofficial.com](#) (canonical may vary by environment)

Update handles here if marketing changes them.

File inventory (this folder)

File	Use
assets/mainline-mark.svg	Mark only — light background
assets/mainline-lockup-dark.svg	Icon + wordmark — dark panel

File	Use
assets/logo.png	Pixel Place app / product logo (copy of public/logo.png)

Drop high-res PNG exports from design tools into assets/ if you need raster masters; keep filenames documented here.

Do / don't (Mainline marks)

Do

- Keep clear space around the mark ($\geq 0.25\times$ the outer icon height).
- Use the dark lockup on dark backgrounds; use the light mark on light backgrounds.
- Prefer SVG for web and PDF generation.

Don't

- Stretch, rotate, or recolor the icon outside approved palette.
- Place the light mark on busy imagery without a solid backing plate.
- Replace "MAINLINE STUDIOS" with a different typeface in the lockup without an updated master file.
