

Pixel Place & Mainline Studios — Brand kit

This folder is a **standalone reference** for designers, partners, and marketing. It covers **Mainline Studios** (parent studio) and **Pixel Place** (product). It is **not imported or bundled** by the Pixel Place app.

PDF exports (logo + print styling)

Share-ready PDFs (Pixel Place logo embedded so images always render) are in **pdf/** :

- **README.pdf** , **MAINLINE_STUDIOS.pdf** , **BRAND_GUIDELINES.pdf** , **COLORS.pdf** , **TYPOGRAPHY.pdf** , **LOGO_AND_ASSETS.pdf**
(PDF headers include **Pixel Place + Mainline** lockup.)

Regenerate after editing the Markdown sources (from repo root):

```
npm run brand-kit:pdf
```

Requires **Google Chrome** or **Chromium** (headless). On Linux CI or servers without Chrome, set **CHROME_PATH** to the browser executable, or build on a machine that has Chrome installed.

Contents

File	Purpose
MAINLINE_STUDIOS.md	Studio identity, marks, hierarchy vs Pixel Place
BRAND_GUIDELINES.md	Name, tagline, voice, do / don't
COLORS.md	Mainline corporate colors + Pixel Place CSS tokens
design-tokens.json	Machine-readable colors & radii (JSON — not auto-PDF'd)
TYPOGRAPHY.md	Typeface, weights, fallbacks

File	Purpose
LOGO_AND_ASSETS.md	Logo, favicon, export checklist
assets/logo.png	Pixel Place — copy of <code>public/logo.png</code>
assets/mainline-mark.svg	Mainline mark (light bg)
assets/mainline-lockup-dark.svg	Mainline lockup (dark bg)
brand-pdf.css	Print stylesheet used by the PDF build
build-pdfs.mjs	Node script: Markdown → HTML → Chrome print-to-PDF

Snapshot

- **Studio:** Mainline Studios — publisher; studio marks in `assets/mainline-*.svg`
- **Product:** Pixel Place — web games, avatars, studio, community
- **Primary product site:** <https://pixelplaceofficial.com> (canonical may vary by env)

Keep this kit updated when you change global styles in `app/globals.css` or primary marketing copy.
